AI Prompt Pack for Transportation Businesses

Ready-to-customize prompts for sales, operations, marketing, and administration

Sales Prompts

• Write a concise cold-email campaign for a transportation company targeting [industry]. Include a clear offer and call to action.

• Create a 30-second phone script for offering recurring delivery services to [business type].

• Turn these business notes into a professional proposal with scope, pricing options, assumptions, and next steps: [paste notes].

Marketing Prompts

• Create 10 social posts promoting [service] to [customer type] in [market]. Avoid unsupported claims.

• Write an SEO-friendly service page for [service]. Include customer problems, benefits, FAQs, and a call to action.

• Give me 20 short video ideas for a transportation business that can be recorded from home.

Operations Prompts

• Create a daily checklist for a dispatcher managing [number] vehicles.

• Turn this shipment information into a clean operations table: [paste information].

• Create a customer update message for a delayed delivery. Keep it professional, transparent, and solution-focused.

Finance Prompts

• Create a simple monthly revenue and expense tracker for a transportation business with categories for fuel, insurance, maintenance, payroll, contractors, software, and marketing.

• Analyze these numbers and identify the three biggest controllable expenses: [paste numbers].

AI Safety

• Do not paste passwords, payment-card information, Social Security numbers, or unnecessary personal information into AI tools.

• Verify legal, tax, insurance, regulatory, and contractual information before using AI-generated material.

MMJ Digital Business Hub • General business education and templates. Review legal, tax, insurance, and regulatory requirements with qualified professionals where appropriate.
